

3. Describe the importance of freshwater algae and other aquatic plants as the basis of food chains

4.

Describe how to study aquatic invertebrates such as dragonflies or snails,

Describe some of the threats to habitats and water conservation within the local catchments and mitigation measures being adopted overcome these threats.

5. Describe the importance of fish in wetland habitats

What teaching methods will be used and will there be work outside of the class?

- The WEA tutor will use a range of different teaching and learning methods and encourage you and the group to be actively involved in your learning
- Students will be encouraged to make their own observations about the natural world and to engage with any relevant citizen science projects to help monitor the local environments.

What kind of feedback can I expect from the tutor?

- A range of informal activities will be used by the tutor to see what you are learning which may include quizzes, question and answer, small projects and discussion
- You will have opportunities to discuss your progress with your tutor
- All students will be encouraged to read widely, to make observations and share these with others and to participate in relevant citizen science projects to help monitor local environments.

What else do I need to know? Is there anything I need to bring?

- Nothing else is needed
- Students will be encouraged to take photographs of plants and animals

Pre-course work, reading and information sources

- No pre reading or pre course work is required

Possible next steps after this course (including career opportunities if appropriate)

- Progress to another WEA course
- Progress to a course with another provider
- Become involved as a volunteer for a WEA partner or another organisation
- Students are encouraged to participate in relevant citizen science projects to help monitor the local environment

Learning with the WEA

WEA courses increasingly make use of the rich variety of educational tools and material available on the internet and from digital devices. The WEA's digital learning platform, Canvas will play an increasing role in all WEA courses to provide resources or support, or to conduct lessons, enable assessment, provide learner feedback and for other activities for individuals away from the course. It is helpful, although not essential if you have access to a computer or smartphone to support your course.

You can read about your entitlements and responsibilities as a WEA student in our leaflet, Student Handbook here <http://www.wea.org.uk/learn-wea/student-support> This includes information on fees, learning support and financial support. As part of your course you accept our Learning Agreement and Privacy Notice. Full details of the Learning Agreement and privacy notice can be found on our website at <http://www.wea.org.uk/policies>. This applies to all courses you take in this academic year.

You can enrol online for some courses <http://www.wea.org.uk/learn-wea/course-search> or contact: WEA Support Services, Suite 10B Joseph's Well, Hanover Way, Leeds, West Yorkshire, LS3 1AB
Tel: 0300 303 3464 Email: courseenquiries@wea.org.uk
