Course Aim

To aid individuals in raising their awareness in how they communicate with others when preparing for employment opportunities. It introduces you to a range of skills and knowledge needed for the working environment.

Course Description

A big part of entering the job market is how we communicate with others, and the confidence we have in our skills and abilities. How we portray and present ourselves is important both at application stage and the interview process. This course aims to help you develop and build on these skills to prepare you for the working environment. We focus on improving our communication skills through; written work, speaking and listening activities. We look at problem solving, basic health and safety as well as customer awareness techniques including body language. We establish if you are getting your message across effectively and have been understood correctly.
