Course Aim

To consider the huge social, political and economic changes as Britain moved from rural to an increasingly urban and industrial environment. This course considers the challenges these presented and the impact on our ancestors locally & nationally

Course Description

In the 61 years of Victoria's reign Britain changed dramatically. This course looks at the political, social and economic changes of that period and some of the people involved in those changes. It includes the great fight for political and social reform, the struggle against disease, the excitement of the 1851 Great Exhibition, the revolution in communications, and much more as we examine how the nation, and most particularly people's lives, were changed for ever.

Do I need any particular skills or experience?

What will I achieve?

By the end of the course I will be able to:

1. Explain the nature of the franchise in 1837 and describe changes that occurred between 1839 and 1901.
2. Consider why Victorian developments in communications "shrank the nation and the world" and explain what these developments were and their impact.
3. List major political, social and economic events of the period and assess their impact locally and

nationally.

4. Describe the drama and excitement of the 1851 Great Exhibition and identify exhibitors from your local area.
5. Identify contemporary sources of information and use these to describe social conditions and changes within your local area.
