

What will I achieve?

By the end of the course I will be able to:

1. Understand how technological and political changes opened up the world to global travellers in the 19th century.
2. Understand how these travellers encountered the distinct cultures of the East, specifically India, China and Japan.
3. Understand how these travellers presented their experiences to the British public when they returned home and how this both challenged and confirmed Victorian perceptions of the East.
4. Consider how many of these travellers went on to create museum collections that still inform us today.
