## Course Aim

To look at the appearance of book covers and understand how they get it so right in portraying the essence of the book by just using eye-catching and clever graphic communication.

## Course Description

In this course we will investigate and research some of the best book covers of all time. We will observe and discuss the styles of the graphic designer/illustrator and look at the media, materials, techniques and processes that they have used to create them. We will attempt to do our own artworks in the style of the designers and look at recent book covers that we can redesign by using the principles we have researched and learnt. You will also have the chance to explore the history of book covers, get involved in group discussions and use reflective practice during sessions.

## Do I need any particular skills or experience?

## What will I achieve?
